I am ok with the author list.

brought up the author order and so I wanted to bounce this off you. My suggestion is below, and here is my logic. First, I agree with that it is unfortunate that we did not have time to work with to write the paper, but it remains that did not. I have funding to put on a project I have with this coming year as and if does that work, will have another chance for first authorship on something. Also, Shawn and I wrote most of the paper with great input from all partners over time. I think I should be corresponding author, and this leaves

Then you before all other faculty.

Shawn P. McElmurry, Terese M. Olson, Paul E. Kilgore, Matthew W. Seeger, Marcus J. Zervos, Susan J. Masten, Laura Sullivan, Benjamin J. Pauli, Nancy G. Love

Reactions?

Shawn will be sending out the paper yet today - we're trying to tone down the "political" statements at the end by keeping in the objective parts and removing the opinionated parts. We'll need final feedback by Monday and upload it very late monday night (I'll upload it from California) so that it is ready for the ACS office to deal with first thing Tue morning. Bruce Logan has arranged for it to be handled in a timely fashion so it does not get held until Jan 3.

Have a nice holiday.

Nancy
