She is just gung ho that the regrowth is a serious drawback of filters-- any attempt to reason with her is pointless.

I asked her to consider speaking with you about regrowth.

She thought that Flint was the only place POU was significantly installed.....hopefully, I corrected that, but I am not sure she even heard that to be honest.

Spewed about multi-barrier and compromised system, and I could not even get a word in edge wise about that.

Nancy at her worst.

She actually said her paper will be published soon....

Eden said that CDC Michael beech could not talk sense to them.....not sure why I bothered.
