

STATE OF MICHIGAN
IN THE 67TH DISTRICT COURT FOR THE COUNTY OF GENESEE

THE PEOPLE OF THE STATE OF MICHIGAN

CASE NO. 17T-1355-FY

v.

NICOLAS LYON

Defendant.

PRELIMINARY EXAMINATION VOLUME IV
BEFORE THE HONORABLE DAVID J. GOGGINS, DISTRICT JUDGE
Flint, Michigan - Friday, October 6, 2017

9 Q Okay, and you know if Mr. Hollins had done anything or took
10 any steps as it relates to the advice you gave him?
11 A It may be shortly after that I got a rather urgent phone call
12 from him saying did I know anybody who was capable of studying
13 Legionella, and I recommended Doctor Shawn McElmurry, an
14 environmental engineer at Wayne State because he had done
15 hydraulic modeling for the city of Flint I think within the
16 past year and since he had been a former Vice President at
17 Wayne State he knew he could contact. Shall I go on?
