Are you working on any research related to Harvey?

And yes...I know I still owe you edits on that damn manuscript!

Starting conversations about what to do but unsure what it will look like!

I want to

I have been looking at water, sanitation and collective accommodations with the refugee crisis for 1.5 years now

Unfortunately it's now relevant

Interested?

I've been approach from nih program manager asking if we can take flint experience to Houston.... We need to talk.

I need someone local and you are perfect given your work.

I am getting on a plane to Korea on Sunday for a week- awful timing, but can make talking work anytime aside from that

I'm tied up all day tomorrow with first day of classes... can we talk tomorrow late or Friday?

First day for me too!

I would love to work e with you again

I'll be on a plane to [redacted] (in Detroit) at 650 for Labor Day so before that or anytime Friday

Felt bad flint thing never panned out...so fucking political
